TRAINING

OrthopedicSurgeryResidency

July2007 -June2011, 4years

Jordan UniversityHospital (JUH), UniversityofJordan

Department oforthopedic&traumaSurgery

- Jordan University Hospital is a large referral center in Amman, with a capacity of 600 beds. The hospital is accredited by the JCI. It also acquired the following quality certifications: HCAC (health care accreditation council, Jordan), ISO 9001, and HACCP (Hazard Analysis and Critical Control Point).
- I am working in the orthopedic and trauma surgery department with a team of two professors, one part time associated professor and four assistant professors.
- Trained in general orthopedics (spine, pediatric, upper limb and adult reconstruction surgeries) and trauma management.
- Assisted in specialized surgeries such as spinal fusion for scoliosis and spondylolisthesis, prolapsed lumbar disc surgeries, pediatric hip surgeries, pediatric foot corrective surgeries, correction of various congenital deformities by the Ilizarov method, bone tumor surgeries, and revision arthroplasty surgeries of the hip and knee.
- Performed multiple surgeries such as total knee arthroplasty, total hip arthroplasty, hip hemiarthroplasty, knee arthroscopy, manipulation of club feet according to the Ponseti method, carpal tunnel release, trigger finger release, ganglion excision, DeQuervain release, and most of trauma surgeries (familiar with the different types of plates, intramedullary nails, and other various methods of fracture fixation).
- Attended three specialty clinics weekly.
- Dealt with a large variety of cases at the emergency department.
- Medical care of the inpatients.
- Prepared 40 seminars about the latest practices in orthopedics taken from the latest articles and journals published online.
- Chief resident of the orthopedic department (June, 2010- June, 2011).

- Worked as a quality facilitator for the JCI accreditation during the final year of residency
